KAMEL BAALBAKI

Toronto, ON | Email: baalbaki.kamel@gmail.com | M: 647-336-6093

Full-stack developer in training with practical experience developing responsive web applications using React, JavaScript, Node.js, and ASP.NET. Skilled in building RESTful APIs, working with relational databases, and implementing modern software development practices. Eager to contribute technical expertise and problem-solving skills in a dynamic development environment.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, SQL
Frameworks & Libraries: React, Node.js, Express.js, ASP.NET
Database Technologies: MySQL, Postgres, MongoDB
Tools & Platforms: Git, GitHub, Postman, Visual Studio, VS Code, WebStorm
Concepts & Methodologies: RESTful APIs, MVC Architecture, Object-Oriented Programming (OOP), Agile/Scrum, SDLC
Operating Systems: Windows, macOS, iOS, Android

EDUCATION

Advanced Diploma in Computer Programming and Analysis **Sep 2023 - Apr 2026**
George Brown College, Toronto, ON

- Designing and developing full-stack web applications using React, Node.js, Express, and ASP.NET
- Building and consuming RESTful APIs with proper routing, authentication, and data validation
- Implementing MVC architecture and object-oriented programming principles
- Designing normalized relational databases and writing optimized SQL queries
- Applying Agile methodologies, Git version control, and collaborative development workflows
- Writing clean, maintainable, and scalable code following industry best practices

Junior IT Analyst Program **Sep 2022 - Dec 2022**
NPower Canada, Toronto, ON

- 14-week intensive online class training on the fundamentals of computer technology, and project management.
- Configure device OS including Windows and Linux, while configuring disk partitions and filesystems.
- Troubleshoot and problem solve core service and support challenges while applying best practices for documentation, change management, and scripting.
- Support basic IT infrastructure and networking, including DNS and DHCP, applying standard protocols with TCP/IP communications. Configure and support PC and IoT device hardware.
- Manage an organization's computers and users using Directory Services such as Active Directory.

WORKING EXPERINCE

Produce Assistant Manager **Jan 2025 - Present**
Farm Boy Inc. 29 Bathurst St, Toronto, ON M5V 2P1

- Supervise department and responsible for providing floor support (e.g. delegating tasks, breaks, readiness for business and operations).
- Manage department inventory including weekly and cycle counts.
- Assist with managing department shrink and provide suggestions on ways to reduce shrink.
- Assist with department scheduling as required.

- Assist with the training of new team members as required.
- Provide coaching while maintaining a high level of confidentiality and trust.
- Assist with the completion of department service assessments.
- Receive and accurately store department orders.
- Responsible for reset of department for the closing team and ensuring department is ready for business.
- Effectively communicate corporate and department information, changes and updates.

PROJECTS & COURSES

- Grocery Tracker System – Node.js JavaScript, React **April 2026**
- Note Management System - ASP.NET, BootStrap **Nov 2025**
- Google IT Support Professional Certificate **Dec 2022**

VOLUNTEERING

MOBI Help Tutor **Jul 2024 - Present**

MOBI Help – George Brown College

- Assisted first-year students with coding assignments and debugging.
- Explained basic web development and databases in an easy-to-understand way.
